01

PLANNING YOUR FENCE

1

START WITH WHY

Privacy? Pets? Security? Property line?
Curb appeal? Get clear on what matters most.

2

LOOK AT YOUR PROPERTY

Think about slopes, access, landscaping,
existing structures and where gates need to go.

3

SET A GENERAL BUDGET

Start by looking at approximate costs for different fence
types and the length of fence you need.

4

THINK ABOUT MAINTENANCE

Consider how much ongoing cleaning,
staining, painting or maintenance you want.

5

GET READY FOR YOUR CONSULTATION

Save inspirational photos, note questions and
identify any concerns about your property.

6

YOU DON'T NEED TO HAVE EVERYTHING FIGURED OUT

That's what the on-site consultation is for.

*At Preferred Choice Fencing,
we believe informed
homeowners make the best
decisions. We are happy to
provide you with resources
that explain your options.
The best fence projects begin
with great conversations
without pressure.*
